GABION RETAINING WALLS **HAMILTON ISLAND, North Point Development** Installed by Groundwork Services

CLIENT

Hamilton Island Engineering Services

DATE

August 2005 – February 2006

PRODUCTS

Gabions – PVC Zinc coating
Non-Woven geotextiles

PROJECT OUTLINE

Groundwork Services were commissioned by HIES to undertake the construction of gabion retaining walls for the North Point Development.

The need for architectural finishes was required to complement the chalets constructed from stone and timber.

Groundwork Services achieved the required finish using smaller river stone supplied by the client.
