HANDY ROLLS

Geotextile Handy Rolls are general purpose filter fabric rolls for lining trenches, protecting pipes and small construction projects. Geotextiles are manufactured for a variety of purposes.

Generally the engineering application for the product will determine the most suitable type of Geotextile that should be selected for use by the designer or contractor.

Standard Strength Class 'A' Grade Non Woven Geotextile (120gsm and 140gsm)

Standard Roll sizes
.60m x 50m
1m x 50m
1.20m x 50m
2m x 50m
